

Encore® 500 Ultra-Hi Dispenser

High gallonage solutions.

Gilbarco Encore 500 Ultra-Hi Dispenser shown with optional alphanumeric keypad and satellites

Encore 500 Ultra-Hi dispensers offer efficient forecourt flexibility with these configurations:

- NP3 Encore 500 Ultra-Hi Master
1-sided Single Master
or 2-sided Dual Master
- NP4 Encore 500 Ultra-Hi Combo
2-sided Master/Satellite
- NP5 Encore 500 Satellite

Compatible with:

- JHC600 Legacy 1-sided Single Satellite
- JHC800 Legacy 2-sided Dual Satellite

Alphanumeric keypad to enter fleet data at the dispenser.

In the trucking world, time is money. Built to deliver fuel at 32 gpm (one hose) or 63 gpm (master/ satellite combined),* the Encore 500 Ultra-Hi dispenser's easy customer interface and optional alphanumeric keypad help customers fuel faster. The Encore 500 Ultra-Hi provides a consistent look across the forecourt and the technology to help you keep pace with changing market needs.

Integrated fleet data entry

The Encore 500 Ultra-Hi has an optional integrated alphanumeric keypad that allows customers to enter fleet information at the dispenser, eliminating the need for an additional island payment terminal.

* @30 psi inlet pressure

Easy customer interface

The Encore 500 Ultra-Hi features Gilbarco's Customer Interface Module (CIM), that centralizes transaction activity into a simplified, easy-to-use ATM-style interface. With all operating controls 48" or below, the Encore 500 Ultra-Hi is ADA-compliant.

Gilbarco warranty

Encore 500 Ultra-Hi dispensers come with a standard two-year warranty.

Fast transactions with CRIND

Encore 500 Ultra-Hi uses Gilbarco's proven dual-head credit/debit card reader and CRIND® technology, for faster payment at the pump. The Ultra-Hi communicates directly with Gilbarco G-SITE® and Passport®, and third-party POS systems.

Easy to maintain

Servicing the Encore Ultra-Hi is more efficient than ever with electronic calibration. The meter and filter are easy to get to, and electronics are conveniently accessed through the "refrigerator" door. Easily reach frequently accessed items such as printers or cash acceptors through the smaller CIM door in the center of the dispenser.

Consistent forecourt image

The Encore 500 Ultra-Hi with optional CRIND is available as Single and Dual Masters, Satellites and Master/Satellite Combos, so you can maintain a consistent look across the forecourt. The high hose design helps extend hose life and offers longer hose reach.
