

# The Governor

**10G 10 GPM Flow Limiter (Female To Male)**

**10G-1 10 GPM Flow Limiter (Male To Female)**

## Model No. 10G Flow Limiter

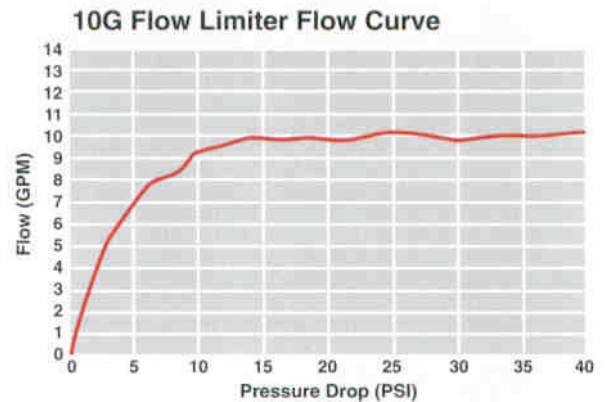

The Governor is specifically designed to meet the 1996 Federal EPA 10 GPM requirement. The Governor 10G is a light-weight, maintenance-free limiter with  $\frac{3}{4}$ " NPT female to male connection that fits all manufacturers' automatic nozzles. Keep your existing nozzles and simply add the Governor. The cost savings to retrofit your equipment is the number one goal in our design of the Governor flow limiter.

### Features

- Controls the flow of gasoline at 9.5 GPM-10 GPM
- Light weight and maintenance free
- Meets 1996 Federal EPA 10 GPM requirement
- Spring-loaded piston design
- Installed directly at the nozzle inlet
- Female to male  $\frac{3}{4}$ " NPT threads

### Materials

- Body is zinc-plated steel
- Spring is stainless steel

## Model No. 10G-1 Flow Limiter

The Governor 10G-1 has the same features and benefits as the 10G, however, this unit is designed to be installed between the dispenser and hose. If you wish to keep your existing swivels and breakaways, the Governor 10G-1 should be your choice.

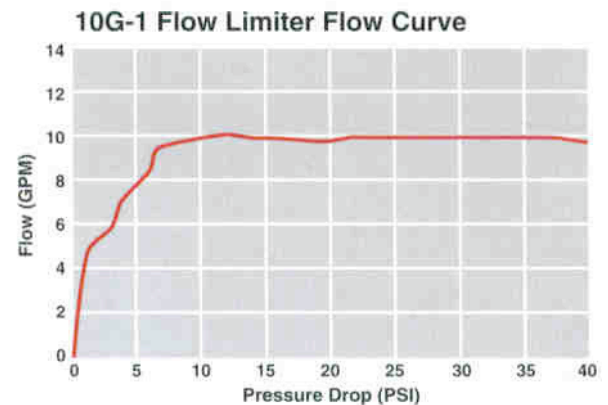

### Features

Same features as the Governor 10G above, except for

- Male to female  $\frac{3}{4}$ " NPT threads
- Install between the dispenser and hose

### Materials

- Body is zinc-plated steel
- Spring is stainless steel
